Tinworks Art announces 2022 season

Bozeman, MT — Now in their fourth year serving the Bozeman community, local nonprofit Tinworks Art returns to where it began four years ago at the former Tin Works Inc. in Bozeman's northeast neighborhood. Tinworks Art is thrilled to make the old industrial complex at 719 N. Ida its permanent home.

In addition to transitioning to a permanent location, Tinworks Art is also in the midst of a nationwide search for a Director, to lead the organization in this next phase of growth.

“It’s an exciting time to be a part of Tinworks Art,” says Greg Avis, Co-Founder. “We know that people want cohesive community more than ever these days, and we believe that making exceptional art accessible to all — art that inspires and brings people together — is an important piece of that puzzle.”

Throughout this transition, Tinworks Art is committed to doing what it does best, providing a summer of one-of-a-kind art events at 719 N. Ida beginning July 8, 2022.

In light of the move to the industrial site, this year's program *Montana: Culture Industry* celebrates artists and designers that are notable for their innovation and entrepreneurialism. Tinworks Art Curator Melissa Ragain explains, “Montana is a producer of many forms of culture besides the traditional fine arts. Our region contributes to the film, design, fashion, design, and music industries in a way that has yet to be acknowledged.”
